PROFESSIONAL SUMMARY

Information Technology graduate with experience in UI/UX design, graphic design, front-end development, social media management, and client-based projects. Skilled in creating responsive interfaces, visual materials, and functional digital solutions. Detail-oriented, adaptable, and open to opportunities in technology, design, digital media, and related fields.

EXPERIENCE

Graphic Designer and Social Media Manager

Aug 2025 – Present

Exquisite Properties PH

Remote

- Designed property listing graphics, social media posts, and digital marketing materials.
- Managed the daily scheduling and publishing of content across social media platforms.
- Posted content at planned times to maintain a consistent online presence.
- Maintained consistent branding, typography, colors, and layouts across digital content.

UI/UX and Graphic Designer Intern

Jan 2026 – Apr 2026

Cloud Ready Technologies Corp.

On-site

- Designed graphics for company events and real client projects.
- Created web interface designs, interactive prototypes, and responsive layouts using Figma.
- Worked on visual materials based on client and company project requirements.
- Explored the Figma MCP Server and demonstrated a Figma design-to-code workflow.

PROJECTS

Exquisite Properties PH Website

Jul 2026 – Present

UI/UX and Front-End Development

- Designed and developed a responsive real estate website using Figma, Next.js, and Tailwind CSS.
- Created landing pages, property listing layouts, navigation, filters, and inquiry sections.
- Used AI-assisted development tools to support coding, debugging, and interface refinement.

EngliQuest

Jan 2025 – Apr 2026

Capstone Project

- Designed a gamified English learning application for mobile and web platforms.
- Created user flows, wireframes, interactive prototypes, and application interfaces.
- Contributed to front-end development using React Native and Next.js.

NextTrip

Nov 2024 – Dec 2024

UI/UX Class Project

- Designed a travel application concept using Figma.
- Created user flows, wireframes, and an interactive prototype.
- Recognized as one of the Top 10 designs in the UI/UX class.
