01 / PROFILE

UI/UX Designer and Front-End Developer with a Bachelor of Science in Information Technology and hands-on experience designing responsive digital interfaces and translating them into functional web experiences.

Experienced in user flows, wireframes, high-fidelity Figma designs, interactive prototypes, reusable components, and front-end implementation using Next.js, React, TypeScript, and Tailwind CSS.

Combines visual design and development to create interfaces that are usable, consistent, responsive, and technically achievable.

02 / EXPERIENCE

UI/UX Designer, Front-End Developer & Graphic Designer

Aug 2025 – Present

Exquisite Properties PH

Remote

Designed and developed the company's digital experience, including the Exquisite Properties PH website, branded assets, and supporting digital materials.

- Designed the website UI/UX in Figma, including information structure, navigation, property sections, service pages, cards, forms, inquiry areas, responsive layouts, and interactive states.
- Planned desktop, tablet, and mobile layouts to maintain clear hierarchy and consistent responsive behavior.
- Translated Figma designs into a responsive production website using **Next.js, React, TypeScript, and Tailwind CSS**.
- Built reusable front-end components to maintain consistent spacing, typography, layout behavior, and styling across the website.
- Implemented an **interactive Maps API integration** for location-based property experiences.
- Developed hover states, transitions, navigation behavior, filters, cards, buttons, inquiry sections, and other interactive UI elements.
- Used AI-assisted development tools for coding support, debugging, troubleshooting, and interface refinement.
- Designed property listing graphics, marketing visuals, and branded digital assets while maintaining visual consistency.
- Supported social media content scheduling and publishing as a secondary part of the company's digital presence.

Figma UI/UX Next.js React TypeScript Tailwind CSS

UI/UX & Graphic Designer Intern

Jan 2026 – Apr 2026

Cloud Ready Technologies Corp.

On-site

- Designed responsive web interfaces and page layouts in Figma for company and client-based projects.
- Created user flows, wireframes, high-fidelity UI screens, and interactive prototypes.
- Designed visual materials for company events and real client requirements.
- Revised layouts and visual assets based on project requirements and feedback.
- Explored the Figma MCP Server and demonstrated a Figma design-to-code workflow.
- Strengthened understanding of how interface decisions translate into front-end implementation.

Figma Prototyping Responsive Design Graphic Design

03 / SELECTED PROJECTS

Exquisite Properties PH Website

UI/UX Design + Front-End Development

Jul 2026 – Present

Designed and developed a responsive real estate website from initial Figma concepts through front-end implementation and deployment.

- Designed landing pages, navigation, property layouts, service sections, listing cards, filters, forms, inquiry areas, and responsive interface behavior.
- Created responsive desktop, tablet, and mobile screens in Figma before implementation.
- Developed reusable components using Next.js, React, TypeScript, and Tailwind CSS.
- Implemented Maps API functionality for location-based property experiences.
- Added hover states, transitions, animations, navigation interactions, and responsive behavior.

Role

UI/UX Designer & Front-End Developer

Stack

Figma / Next.js / React / TypeScript / Tailwind CSS / Maps API / Vercel

EngliQuest

Capstone Project

Jan 2025 – Apr 2026

Gamified English learning application designed for mobile and web platforms.

- Designed user flows, application structure, wireframes, and high-fidelity interfaces.
- Created interactive prototypes for mobile and web experiences.
- Applied gamification concepts to support a more engaging learning experience.
- Contributed to front-end implementation using React Native and Next.js.

Role

UI/UX Designer & Front-End Contributor

Stack

Figma / React Native / Next.js

NextTrip

UI/UX Class Project

Nov 2024 – Dec 2024

Travel application concept focused on simplifying trip planning and organization.

- Created user flows, wireframes, high-fidelity interfaces, and an interactive prototype in Figma.
- Developed a consistent visual system and responsive interface direction.
- Built a portfolio case study presenting the design process and final interface.
- Recognized as one of the **Top 10 designs** in the UI/UX class.

Role

UI/UX Designer

Tools

Figma / Wireframing / Prototyping / Responsive Design

04 / TECHNICAL SKILLS

UI/UX Design	User Interface Design, User Experience Design, User Flows, Wireframing, Information Architecture, High-Fidelity UI, Interactive Prototyping
Design Systems	Reusable Components, Component-Based Design, Typography, Spacing Systems, Grid Systems, Color Systems, Visual Hierarchy
Front-End	HTML, CSS, JavaScript, TypeScript, React, Next.js, React Native, Tailwind CSS
Development	Responsive Development, Reusable Components, Design-to-Code, Interactive UI, Front-End Debugging, Web Deployment
API & Integration	Maps API Integration, Location-Based Interfaces, Front-End API Implementation
Tools	Figma, Visual Studio Code, GitHub, Git, Vercel, Canva, Figma MCP Server, AI-Assisted Development

05 / SOFT SKILLS

Attention to Detail

Maintains consistency in spacing, typography, responsive behavior, and interface details.

Adaptability

Adjusts work based on project requirements, feedback, and technical limitations.

Organization

Keeps design files, components, layouts, and development work structured.

Continuous Learning

Explores new design workflows, development technologies, and AI-assisted tools.

Problem-Solving

Identifies practical solutions to design and front-end implementation challenges.

Visual Thinking

Translates ideas and requirements into structured, clear digital interfaces.

Collaboration

Works with project requirements, client feedback, and team input throughout the process.

Time Management

Balances UI/UX design, front-end development, revisions, and project responsibilities.

06 / EDUCATION

Bachelor of Science in Information Technology

Ateneo de Naga University

Aug 2022 – Apr 2026

Naga City, Philippines

Academic background in software development, web technologies, information systems, interface design, and digital product development.

07 / DESIGN-TO-DEVELOPMENT WORKFLOW

01 / Structure

Organize requirements, content, user flows, page hierarchy, and responsive behavior.

03 / Develop

Translate approved designs into responsive React and Next.js components.

05 / Test

Review layouts and interactions across screen sizes and identify implementation issues.

02 / Design

Create wireframes, high-fidelity screens, reusable components, and prototypes in Figma.

04 / Integrate

Add APIs, interactions, navigation, forms, filters, and animations.

06 / Refine

Improve spacing, typography, hierarchy, responsiveness, and interface consistency.

08 / DESIGN + DEVELOPMENT APPROACH

Design → Prototype → Develop → Integrate → Refine

I design interfaces with implementation in mind. Front-end development helps me consider responsive behavior, reusable components, interactive states, spacing systems, and technical limitations while working in Figma.

My design background also helps me approach development with stronger attention to usability, typography, hierarchy, consistency, and visual detail. —————
